PROJECTS

Fin - The invisible tape dispenser Product Design 2025 - Conducted a 49-user behavioural study identifying systematic friction points in everyday tape dispenser usage. - Redesigned the product around a single 10-degree blade-tilt geometry, eliminating six documented friction points without adding parts or complexity.	Consumer Goods
Dexio - Insulin Administration System Product Design 2026 - Redesigned an insulin pen and companion app for elderly users with reduced motor control, eliminating precision grip through a palm-grip mechanism sized against the Indian Anthropometric Databook. - Designed a dwell-timer LED system enforcing full insulin delivery, and an automatic dose-detection signal closing the family-visibility gap without requiring the patient to log anything.	Healthcare Medtech
Suchak - Mobile Environmental Diagnostic Unit Product Designer 2025 - Conducted 6-week field research with polyhouse farmers in Haryana to identify operational feedback gaps. - Designed an agricultural diagnostic device measuring 11 soil and air parameters, addressing systemic inefficiencies causing annual losses of ₹1 lakh+ per farmer.	AgriTech
Arka - Mental Health Discovery Platform Digital Product Design 2024 - Designed a peer-validated platform connecting queer students with LGBTQ+-affirming mental health practitioners, including anonymous browsing and a community review system. - Partnered with Mariwala Health Initiative to integrate a verified practitioner database, ensuring safety and trust.	Social Impact
